

Quality Policy

Del Corporation is committed to being the industry leader in the design, manufacture, sales and rental of customized tank systems and equipment for all types of dredging, dewatering, solids control, solids separation, and solids handling. The organization is committed to extending its global reach in supplying world class equipment to such industries as environmental, construction, chemical / petrochemical, pulp and paper manufacturing, mining, oilfield / drilling, dredging, governmental / municipal, and power plants.

We will work diligently towards organizational excellence and continual improvement, while maintaining our core beliefs of providing our customers equipment they can depend on and prompt response to their needs. In doing this we will work towards meeting customer needs and exceeding their expectations.

We will achieve organizational goals by maintaining, continually evaluating, and improving the quality management system which conforms to ISO 9001:2015 quality management system standards.

We will establish and constantly analyze quality objectives to identify opportunities for improvement and provide DEL Corporation employees the resources necessary to meet those objectives.

We will create a corporate culture where quality principals are not only communicated and understood throughout the organization, but engrained in who we are and what we do.
